

# Hospital Admission

## Checklist

---

### Admission to the ward

#### Inform the nursing staff about

- Diets that you follow (e. g. diabetes diet, low salt, etc.)

---

- Dietary habits (e. g. vegetarian, no pork, ...)

---

- Incompatibilities (e. g. gluten, lactose, etc.)

---

- Allergies (e. g. medication, foods, materials, etc.)

---

- Sleeping habits (e. g. rest periods)

---

#### Inquire about the fixed appointments during your stay

- Doctor visits

---

- Operation/examination appointments

---

- Therapy times

---

- Meal times

---

## Initial examination by the doctor

### Please inform the doctor about

- All medications that you are taking (medication plan)

---

- Allergies (e. g. to medication, foods, materials, etc.)

---

- Special features (e. g. prostheses, pacemakers, implants, etc.)

---

- Sensitivity to pain (especially in the event of planned operations)

---

- Any substance abuse (e. g. tobacco, alcohol, drugs, etc.)

---

- Existing living will

---

### For new prescriptions during the entry examination (e. g. examination, medication)

- Reason for the new prescription?

---

- Expected result?

---

- Benefits, risks and side effects?

---

- What happens if you reject the prescription?

---

- Can a generic medicinal product be prescribed instead of an original medicine?

---

## Ward round
