

smartDoc

For your virtual doctor's appointment

With the smartDoc basic insurance model, you decide when, where and how to take care of your medical concerns.

Save time in the waiting room thanks to the Medgate digital health practice and benefit from attractive premiums.

One point of contact

Medgate is there to help with your medical concerns

Any time and place

By telephone, app or chat – around the clock, from home or on the go

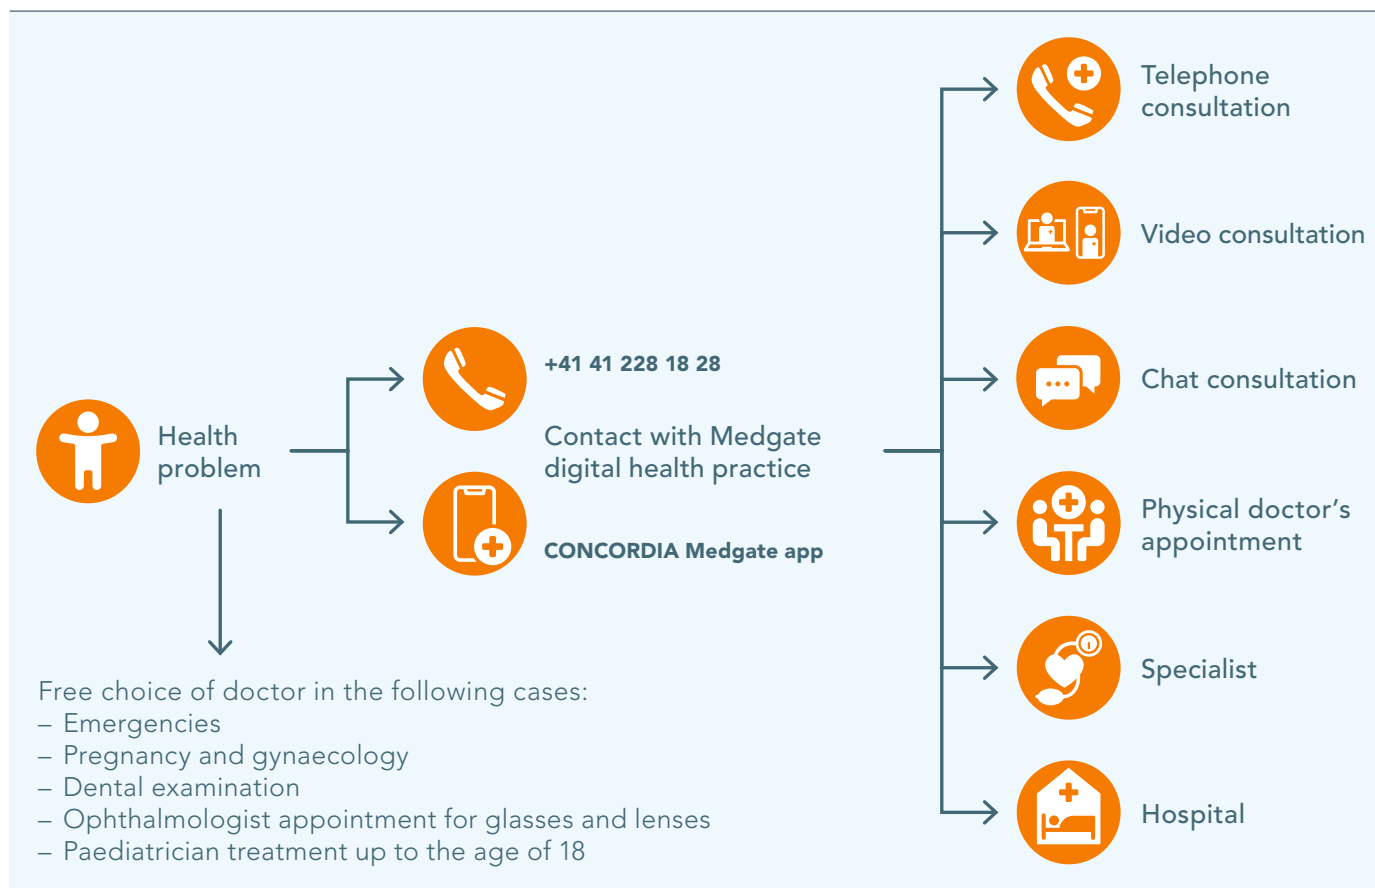

Cut costs

No unnecessary consultation – lower premiums

smartDoc

For your virtual doctor's appointment

If you have a medical concern, you can contact the Medgate digital health practice either by telephone or via the app. The Medgate doctors will decide which further treatment you require – thus saving both time and money. How it works:

With the CONCORDIA Medgate app, you can consult a doctor at any time and from any place. Whether you're at home or out and about – the process is simple and there is no need to sit in a waiting room. You decide which app function – phone call, video consultation, symptom checker or chat – is best for you and your medical concern.
